

DEAR VALUED CUSTOMER,

we would like to inform you that there will be a change in the box design of our Pe-Ha-Visco® multi-boxes.

The new box design enhances the efficiency of our logistics facility and, more importantly, improves customer convenience when retrieving a product from the multi-box. This is achieved by relocating the opening mechanism to the long side of the box, creating a horizontal format.

The general dimensions of the box remain identical.

Additionally, in line with our waste reduction goals, this new design eliminates the need for foam inserts.

Previous multi-box design

New multi-box design

PRODUCTS AFFECTED BY THE CHANGE:

Pe-Ha-Visco® 2.0% (box of 10)
Pe-Ha-Visco Plus® 2.4% (box of 10)

Please feel free to contact us if you have any questions.
